5. Statement of the manufacturer/applicant

The product is fully developed as a type and information stated in this application form, submitted documentation as well as other data are complete and giving a true picture of the product state on the date of producing this application form. Manufacturer/applicant declares that he has not made any request for SK Technical Assessment for the construction product referred to in clause 3 of this application form to any other Approved Body for technical assessment, or the manufacturer/applicant has made such request, but the request was rejected/withdrawn because of following reason:

Falsehood of this statement is disciplinable according to valid legislation.

6. Obligations of the applicant for issue of SK Technical Assessment

Applicant for issue of SK Technical Assessment has to:

- submit all the documents necessary for execution of technical assessment in language which is understandable for Approved Body for technical assessment FIRES, s.r.o. (i.e. Slovak, Czech, English or Polish language);
- cooperate with the Approved Body for technical assessment during execution of technical assessment in the range required by Approved Body for technical Assessment, including ensure that the manufacturing places can be visited by representative of Approved Body for technical assessment in relation to issue of SK Technical Assessment;
- settle the full costs arising from the technical assessment process to Approved Body for technical assessment stated in the head of this application form;
- **submit following documents as annexes of this application form for issue of SK Technical Assessment:**
 1. detailed technical description of construction product;
 2. drawings of construction product;
 3. test reports and classification reports related to the particular construction product, resolutions or calculations of other testing laboratories or approved/notified bodies about particular construction product which are relevant during technical assessment process;
 4. quality management system certificates or document issued by inspection body expressing positive result of inspection of the manufacturing plant and of factory production control if they were issued for the manufacturing plant;
 5. documents about factory production control, especially managing of production control, staff and technical equipment of production control, if neither quality management system certificate nor document of competent institution expressing positive result of inspection of the manufacturing plant and of factory production control has been issued for the manufacturing plant;
 6. copy of statement of trade register or copy of trade licence.

7. Notes

- application form has to be filled in for each product manufactured in this country or imported and for each place of manufacture separately;
- enclosed documents according to clause 6, related to several products simultaneously required for technical assessment can be enclosed to one application form, while references are made in the other application forms;
- application form has to be sent together with enclosed documents in one copy, all as a registered letter to the address shown in the heading of this application form;
- trade and legal relations will be dealt in a separate contract, enclosed according to § 591 and others of Commercial Code. Separate contract will be elaborated on the basis of this application form.
